

OUTDOOR INSPIRATION

[Pavers | Walls | Outdoor Living Kits]

INSPIRED OUTDOOR LIVING

Outdoor living should be nothing short of inspiring. Whether you step outside to relax, reconnect, or entertain, the spaces you create should feel like a seamless extension of your home and your lifestyle.

Welcoming | Sweeping driveways and well-defined pathways frame your property beautifully, and make a clear statement of welcome to the visitors you invite to your home.

Relaxing | The outdoors plays host to some of our happiest moments, and the right paving creates the perfect backdrop for gathering and relaxing with family and friends.

Redefining | Think big. Be bold. Capture a mood. Play with pattern, texture, and colour. The creative use of paving can transform your home and its surroundings.

Enhancing | Elevate the value of your home by reclaiming usable space, creating more expansive vistas, and enhancing the unity and integrity of your property.

Protecting | Eco-friendly, weather-resistant paving options beautify your space while managing storm-water runoff, encouraging healthy drainage, and protecting your property.

DESIGN WITH CONFIDENCE

Basalite has manufactured trusted concrete products in North America since 1936, and we continue to innovate and refine our craft year after year. The Basalite range of paving products is our latest and proudest creation, cementing our reputation as a one-stop shop for beautiful, durable concrete hardscaping materials.

TRUSTED INNOVATION

Constructed of durable, quality materials by qualified technicians, Basalite pavers stand the test of time, enhancing the comfort, functionality, and aesthetic appeal of your home for years to come.

Expertise | Basalite is the trusted industry leader in hardscaping products, with a history of innovation in materials, techniques, and technologies.

Service | We're proud of our reputation for exceptional service and reliability among retailers, landscape architects, engineers, and contractors.

Quality | Crafted in our local, state-of-the-art facility by qualified hardscaping professionals, our pavers meet the highest quality standards.

Choice | Create the perfect look with a wide selection of paving styles, finishes, colours, and patterns to complement every home.

Durability | Combining style with strength, Basalite pavers are constructed to stand up against the elements and look good for years.

PAVE THE WAY FOR INSPIRATION

What does your perfect outdoor space look like? Sleek and modern? Elegant and natural? Steeped in Old World charm? Whatever your vision, the Basalite collection brings the vision to life.

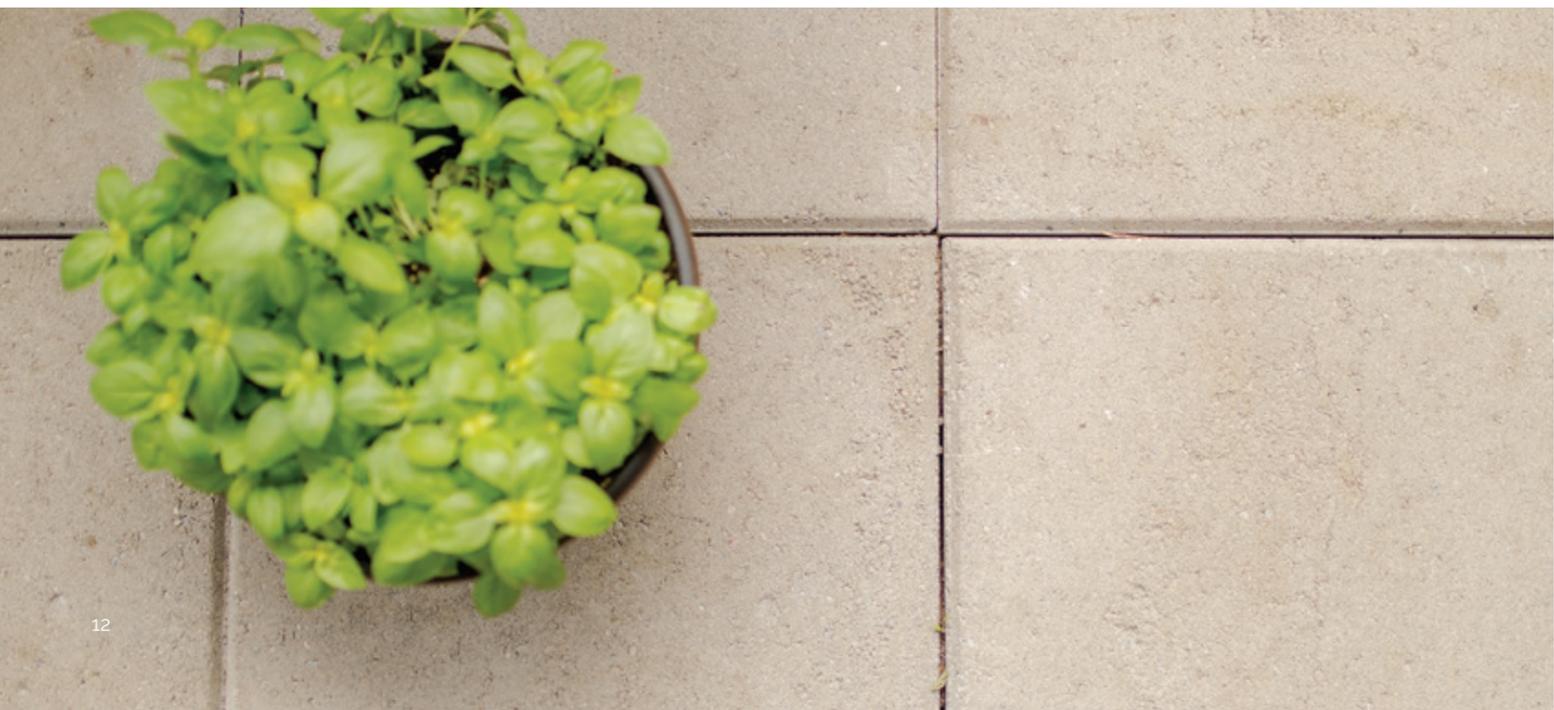

SLAB SERIES™ SIMPLE AND VERSATILE.

The possibilities are endless for this smooth or textured, clean-lined paver. Use them individually as stepping stones or combine them to create continuous surfaces such as patios or pathways.

Slab Series™

Let the clean-lined elegance of these bold pavers inspire your outdoor designs. Easy to install and complimentary to a wide array of hardscape products, the Slab Series™ combines versatility and natural beauty.

Slab Series™ is also the perfect size for creating graceful stepping-stone pathways across lawns or garden areas.

Specifications

This paver comes in three square sizes of 12", 18" and 24" that are ideal for use as a stepping stone or an integral paver. Available in Natural Grey, Charcoal, and Ebony.

SF RIMA™ PERMEABLE. PROTECT AND ENHANCE.

SF Rima™ permeable pavers are designed with the environment in mind, reducing storm water runoff, decreasing flooding and relieving storm water systems. SF Rima's unique design allows it to be installed with spacer-on-stone for water drainage or spacer-on-spacer for turf growth.

SF Rima™ Permeable

This innovative and eco-friendly paving option helps manage storm water more effectively and minimize the risk of flooding. The unique design of this paver promotes water drainage and can also be used to promote turf growth. Its sturdy surface area is perfect for pedestrian and vehicle traffic in both residential and commercial high-traffic areas. Available in Verona, a lighter, golden hue .

Specifications

These permeable pavers can be arranged in two different patterns to support water drainage or turf growth.

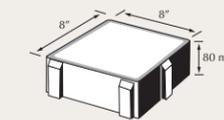

The printed colour shown in this brochure may vary from actual product colours. We recommend selecting colours from actual product samples. SF Rima is also available in custom colours by special order. Please contact your local dealer for more information.

WOOD GRAIN SERIES.™ WARM AND NATURAL.

The warmth and appeal of natural wood is captured in fine detail in this durable, low-maintenance concrete paver that's perfect for decks and transitional spaces.

Wood Grain Series™

Basalite's Wood Grain Series™ combines the look and beauty of natural wood with the durability of concrete. Available in a gorgeous tone, these pavers are ideal for homes in natural and West Coast settings, or bring warmth and texture to any modern home.

The unique finish can be used to soften the transition between internal and external spaces, harmonize with interior hardwood flooring, or simply bring a more organic yet polished look to a range of outdoor spaces.

Flagstone

With a hand-crafted look and feel, the Flagstone paver emulates the imperfections of natural stone while providing a more durable, practical alternative. Four unique surface textures and patterns replicate the irregularities of genuine flagstone creating depth and interest. Available in a choice of two earth-tones, this paver is ideal for pathways, driveways, patios, and any area where a casual, unstructured feel is desired.

Basalite's Flagstones are easy to install, with a unique spacer design and alignment grooves that deliver perfect results every time.

Specifications

These pavers come in four different configurations that come together to create the irregular patterning of natural flagstone. Choose from two stock colours: Positano, a weathered grey-brown, and Torino, a cool grey tone.

PATTERNS

ITALIAN RENAISSANCE. CLASSIC AND REFINED.

The Italian Renaissance series recreates the rich, textured surface and quaint, distressed appearance of the European stone roads that were naturally antiqued by carriage wheels and horses' hooves.

Italian Renaissance

Bring a touch of continental charm to your outdoor spaces with this series of finely textured pavers. The Italian Renaissance collection offers an understated elegance in a palette of time-mellowed colours that suggest the streets and terraces of Europe.

Square and rectangular pavers can be arranged to create tranquil patios and frame lush garden areas, or build welcoming pathways and driveways that complement and harmonize with classic and traditional styles.

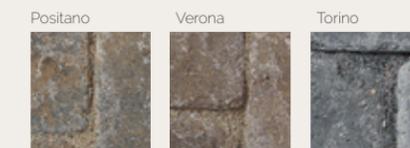

Specifications

These pavers are available in three sizes that come together in a wide range of patterns. In three colours: Positano, a weathered grey-brown; Verona, a lighter, golden hue; and Torino, a cool, grey tone.

Installation

Basalite concrete pavers are designed for optimal style and durability. Correct installation will ensure that your outdoor space looks beautiful for years to come.

Please note that these installation instructions and illustrations provide a basic overview of paver installation methods. Because installation methods vary for each product, please refer to the Basalite product installation guide, use the standard ICPI installation method (ICPI.org), or visit www.basalite.ca.

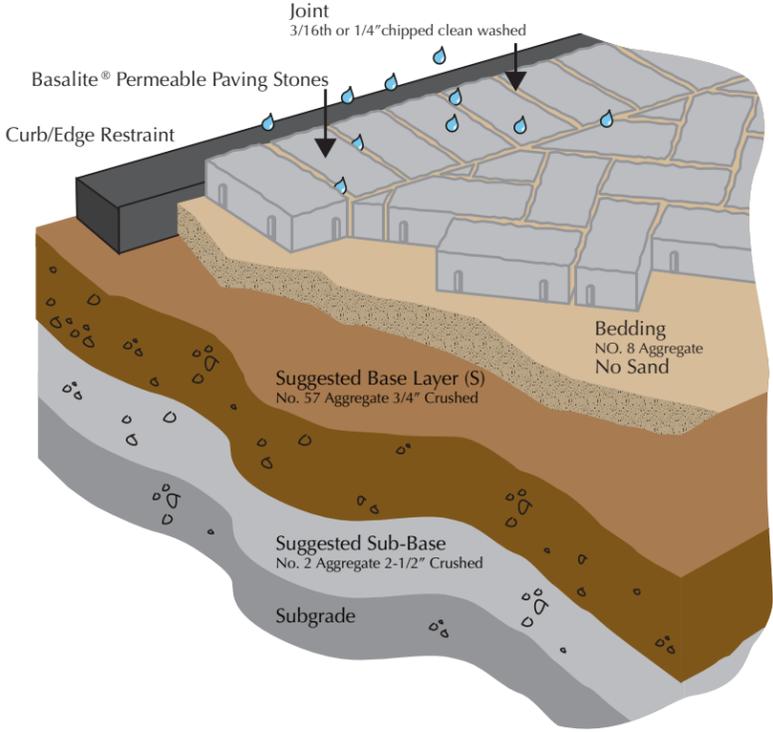

TYPICAL PAVER INSTALLATION

1. Excavate unsuitable, unstable or unconsolidated subgrade material and compact the area which has been cleared. Backfill and level with dense graded aggregate suitable for base material (typically 3" to 6" for pedestrian or light vehicular traffic and 8" to 10" for driveway applications), or as otherwise directed by the site engineer, architect, or landscape architect.
2. Install edge restraint using concrete curb, concrete toe or edging.
3. Place bedding course of sharp, normal-weight screening or concrete sand to a uniform depth of approximately 1" leveled to grade.
4. Install Basalite pavers hand tight with joints approximately 1/8". Where required, cut stones with an approved cutter to fit accurately.
5. Tamp pavers with mechanical vibrator, uniformly level, true to grade and free of movement. Textured pavers require a rubber pad for the vibrator to reduce scuffing.
6. Fill voids in joints by sweeping dry, fine, sharp sand over pavers.

PERMEABLE PAVER INSTALLATION

1. Excavate unsuitable, unstable or unconsolidated subgrade material and compact the area in accordance to ICPI guidelines. Backfill and level sub-base with No. 2 aggregate 2 1/2" crushed. Backfill and level base layer with No. 57 aggregate 3/4" crushed. The joint material and the foundation (paver bed, subbase, subgrade) must be permeable. 60mm thick pavers may be used in pedestrian applications.
2. Install edge restraint using concrete curb, concrete toe or edging.
3. Place bedding course of No. 8 aggregate 3/8" leveled to grade.
4. Install pavers in closed assembly with spacer on stone for water drainage. Fill joints with gravel. Where required, cut stones with an approved cutter to fit accurately.
5. Tamp pavers with mechanical vibrator, uniformly level, true to grade and free of movement. Textured pavers require a rubber pad for the vibrator to reduce scuffing.
6. Fill voids in joints by sweeping dry ASTM No. 8, 89 or, 9 stones.
