# the kitchen™

by necessities

### Affordable luxury

The Kitchen by Necessities is beautiful, functional and turns backyards into attractive and enjoyable outdoor living spaces. These cabinets come ready to assemble making them easier to install and more affordable than typical masonry structures.

### Easy to build

The Kitchen is a series of individual cabinet kits that come complete with everything needed to build, including precut block and granite tops sized to fit, reinforcements, adhesive, and easy-to-read, step-by-step instructions. Depending on the complexity, most kitchens can be built in a day or less.

### Expand at anytime

Build your Kitchen all at once or add new features over time. Because of their modularity, expanding your outdoor cooking and entertaining space is easy to do at any time.

### Convenient standard features

- Easy-to-read, step-by-step instructions
- Rockwood's multi-piece tumbled Lakeland block
- Premium stainless steel grills and components
- High-grade 3cm granite tops
- Concrete precut and reinforcements sized to fit
- VOC compliant adhesive and gloves

### Earthy colors

The Kitchen features Rockwood Retaining Walls' multi-piece, tumbled Lakeland wall block. Its linear design and aged appearance fit well in landscapes of any style or decor.

## **beautiful granite tops** available in two very popular colors

Granite is an igneous rock formed billions of years ago when magma cooled deep beneath the earth's crust. Nearly as durable as diamond, granite owes its density and hardness to its origins – solidified under extreme pressure deep within the earth.

Granite is as durable as it is beautiful; it's not affected by extremes in temperature and under normal conditions, resists etching by knives, household acids and kitchenware.

### **Besides its beauty, granite is...**

- 100% natural and non-toxic
- Cleans without difficulty
- Sanitary – when sealed, granite does not harbor bacteria
- Highly resistant to burning or charring from hot pans, appliances, utensils etc.

## **premium grills, ovens and kitchen components**

The Kitchen features Summerset Professional Grills and stainless steel components. Their commitment to quality is reflected in the craftsmanship of their products that are backed by the strongest warranty in the industry.

### **made with **crazy good** stainless steel**

The Kitchen grills and cabinet components are subject to constant use, and the damaging effects of time and Mother Nature. For these reasons, the Kitchen grills and components use high-grade stainless steel for reliability and durability. These professional series grills are designed and built with performance, ease of use and total customer satisfaction in mind. With proper care and maintenance, they can last indefinitely.

#### **The real strength comes from #443 stainless steel**

Grade #443 stainless steel is an alloy high in titanium and chromium (making it magnetic), yet very low in carbon. High quality stainless steel was formally perceived as non-magnetic, but since the origin of #443 that is no longer true. Compared to other grades of stainless steel, #443 expands less when heated - meaning less stress, warping and corrosion - making it the choice for use throughout the Summerset Professional Grill Series.

Grade #304 is one of the most widely used grades of stainless steel. Its durability and beauty make it the preferred grade in the market. #304 is a non-magnetic alloy high in chromium and nickel with some carbon. It is used in the drawers, doors and sinks, along with the cooking grids and racks, because it will last like no other.

#### **There are stainless steels you won't find in any of our products**

Grades #201 and #202 stainless steel are comprised of nickel with magnesium or nitrogen. These alloys were created to reduce costs; they are not magnetic, nor stand up to the elements as well as grades #304 or #443. Commonly used in grills and appliances of lesser quality, #201 and #202 are more likely to experience corrosion when subject to high temperatures.

### **and backed by some serious warranties**

#### **Grills**

Lifetime warranty on burners. Limited two year warranty on construction and workmanship, one year warranty on valves, grates, burner covers, basin, drip tray, rotisserie motor and grill covers.

#### **Side Burners**

Limited three year warranty on construction, workmanship and materials, two year warranty on valves and burners.

#### **Components**

Limited lifetime warranty on construction, workmanship and materials for all stainless steel components, including doors, drawers, ice chests, beverage centers, sinks and grill liners.

#### **Granite/Concrete**

All Kitchen cabinets come with a limited lifetime warranty on the granite and concrete against material defect.

Know what's below.  
Call before you dig.

Please note: Before planning your kitchen project, check with your local zoning commission for building restrictions and required construction permits. Always call 811 before you dig.

Use this simple guide to help you and your landscape professional create an attractive and comfortable landscape you will enjoy everyday.

#### **The real benefits of landscaping**

Curb appeal — it's the best way to make a good first impression. Most homeowners agree, spending over \$45 billion on professional lawn and landscape services. Gardening has become America's #1 pastime, with over 80% of all households participating.

#### **What does this mean to you?**

A well designed landscape does more than bring increased value to your home, it brings energy savings as well. More importantly, quality landscaping brings you endless days of enjoyment.

So follow the number one trend in the country and bring the indoors out by adding a raised patio, fire pit or an outdoor kitchen. Regardless of what you do, the enjoyment of the outdoors will reduce your stress and add real value to your home.

#### **Just follow these five simple planning steps:**

- 1) Do your homework
- 2) Make a list
- 3) Make a budget
- 4) Sketch your design
- 5) Hire a qualified landscape contractor

#### **1) Do your homework**

Visit our web sites to see backyard patio plans, photos, ideas and MORE! Stop by your local book store or library for books and magazines on landscape designs. You can get ideas for hardscape materials, plants, accents, furniture — everything to help make your planning complete.

#### **2) Make a list**

Make a list of things you like and dislike. If mowing the lawn or weeding a flower garden isn't for you, make note of it. Do you prefer rocks vs. mulch? Do you love flowers, but dread replanting every year?

Highlight your interests below:	Like	Dislike	Maybe

Sound System	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Seating Area	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

#### **3) Make a budget**

When budgeting for landscaping renovation, plan to invest about 10% of your home's value, according to the American Society of Landscape Architects (ASLA). A more elaborate backyard sanctuary may require 15 to 20%. Much of what you will spend depends on how long you plan to stay in your home. If you plan to stay for more than ten years, 15 to 20% will give you the enjoyment you desire for years to come.

Homes Value \$ \_\_\_\_\_ x \_\_\_\_\_ % = \_\_\_\_\_ (Your budget).

#### **4) Sketch your design**

Take out a pencil and paper and start at the beginning. Sketching will help you discover your likes and dislikes and make your landscaping process much easier.

#### **5) Hire a qualified landscape contractor**

If you're not quite the weekend warrior to tackle your own landscape construction, start talking to the professionals. Landscape pros are invaluable assets for their design expertise, product knowledge and construction methods.
